

Incoming Kindergarten Summer Homework

June 2017

Dear Parents and Students,

Attached is your daily homework for the summer. Each week consists of: a daily reading log and name writing practice plus a writing (drawing) prompt and a math activity for each day.

Reading Log: Read a chapter of a book or a short book each day and track how many pages and how much time you spent reading. I encourage you to help the kids sound out words to continue to practice their beginning phonics knowledge.

Name Writing Practice: Write your student's name on the first line using title form. Students will practice writing their name once each day. It is important to encourage them to follow the lines and help them keep their letters neat and without adding extra flare.

Writing: Each day your student will draw or write (best spelling guess or dictation) answering the prompt given. On Thursdays they will also label their pictures (me, flower, etc.)

Math: Activities consist of color by number, dot to dot, simple addition, comparison, and shape tracing,

This summer homework packet will be due the first day of school in the fall.

Your child will be given a grade for reading, math and writing. These grades will be the first grades for your child. Thank you in advance for making sure your child is off to a great start!

Sincerely,
Adriana Hernandez
