

Dear Incoming St. Therese Family,

Attached you will find a summer homework packet for your incoming 1st grader. The packet contains 8 weeks of work for 5 days each. Please help your student complete one page per weekday (or weekends depending on your busy summer schedule).

The first part of each page is a reading log. Please have your student read independently or with a grown up/ older sibling for 15-20 minutes, record the time, and initial that the reading was completed.

The second part contains ten math problems. For the first six weeks, the problems are provided. For the last two weeks, the students will need to create and solve their own math problems. If additional scratch paper is needed, please date it and attach it to the back of the packet.

The last part of each day's work is a writing prompt. Please allow your student to use their "best guess spelling" to write at least two complete sentences to answer the question(s). The first grade teacher will be looking for neat printing in the correct case, a capital letter at the beginning of each sentence, spaces between the words, and correct punctuation.

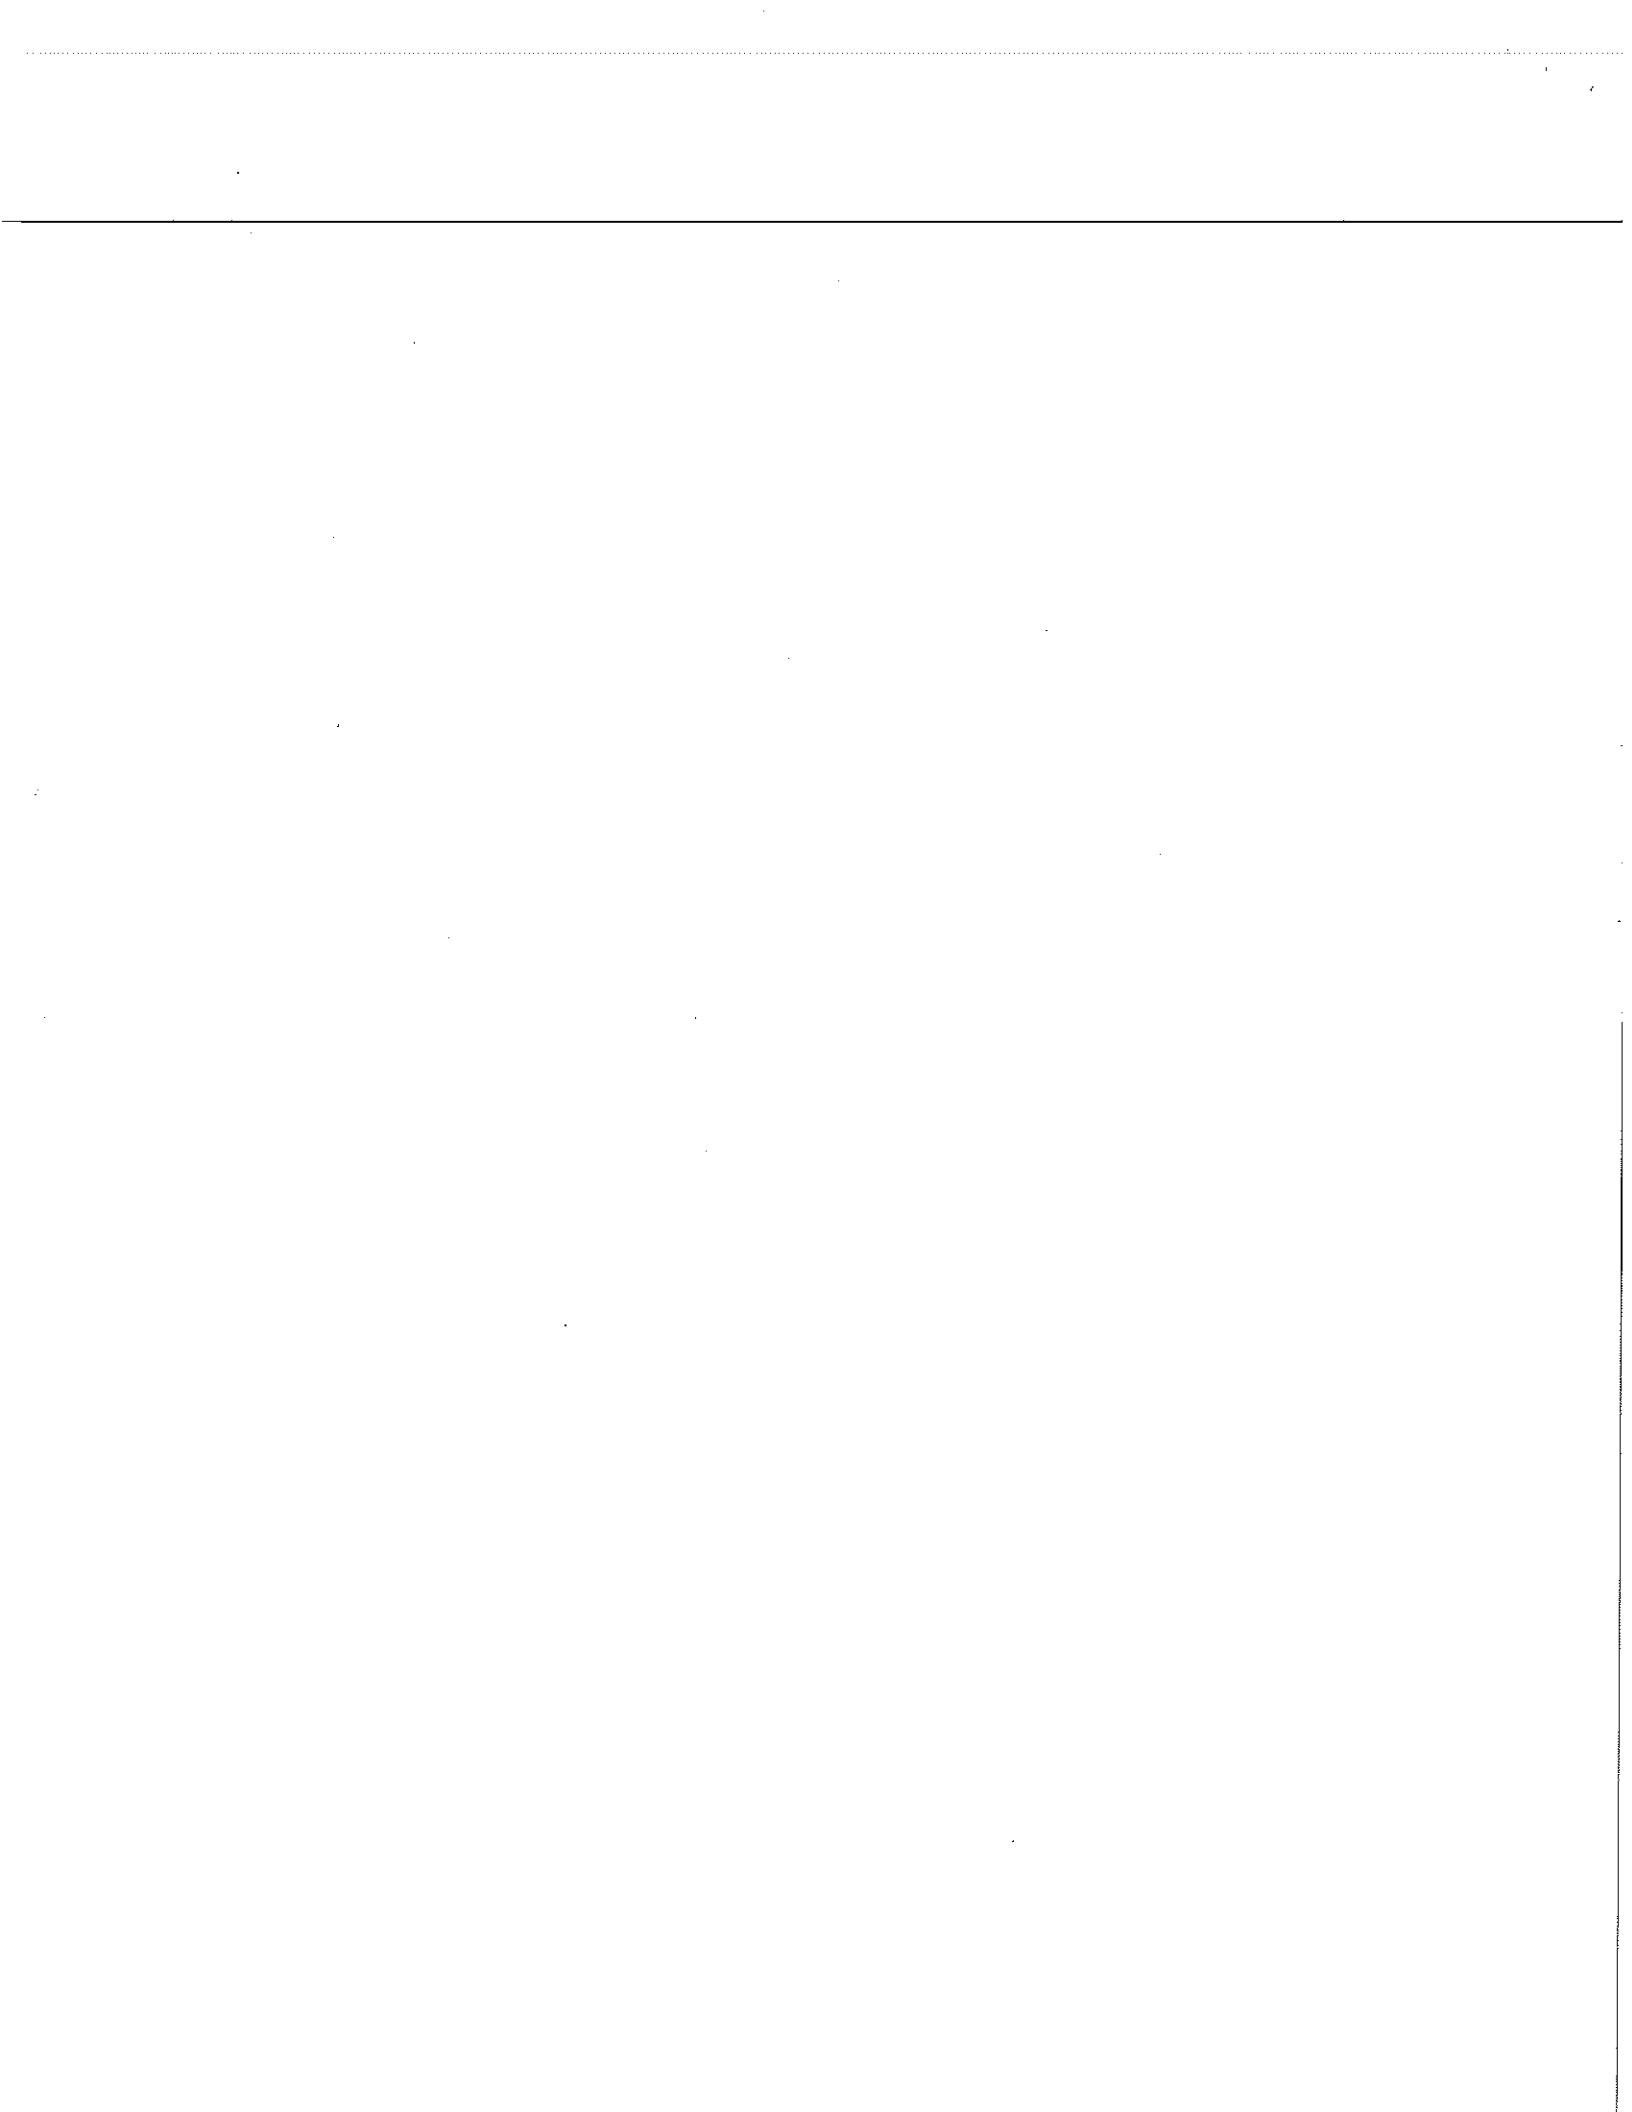

If your student has completed their daily work and would like some extra practice, they are welcome to complete as much IXL work as they would like. Just go to [ixl.com](http://ixl.com) on your phone, computer, or tablet and enter the following account information:

Username: \_\_\_\_\_ Password: \_\_\_\_\_

If you have any questions or concerns regarding this summer homework packet, please feel free to send me an email at [vfuller@stcaseattle.org](mailto:vfuller@stcaseattle.org). Have a wonderful summer!

God bless,

Vanessa Fuller  
Kindergarten Teacher, St. Therese Catholic Academy
